REFLECTION FOR THE WEEK

June 18th

The Solemnity of the Most Holy Body and Blood of Christ is also known as the Solemnity of Corpus Christi, which translates from Latin to "Body of Christ." This feast originated in France in the mid thirteenth century and was extended to the whole Church by Pope Urban IV in 1264. This feast is celebrated on the Thursday following the Trinity Sunday or, as in the USA, on the Sunday following that feast.

This feast calls us to focus on two manifestations of the Body of Christ, the Holy Eucharist and the Church. The primary purpose of this feast is to focus our attention on the Eucharist. The opening prayer at Mass calls our attention to Jesus' suffering and death and our worship of Him, especially in the Eucharist.

At every Mass our attention is called to the Eucharist and the Real Presence of Christ in it. The secondary focus of this feast is upon the Body of Christ as it is present in the Church. The Church is called the Body of Christ because of the intimate communion which Jesus shares with his disciples. He expresses this in the gospels by using the metaphor of a body in which He is the head. This image helps keep in focus both the unity and the diversity of the Church. The Feast of Corpus Christi is commonly used as an opportunity for public Eucharistic processions, which serves as a sign of common faith and adoration. Our worship of Jesus in His Body and Blood calls us to offer to God our Father a pledge of undivided love and an offering of ourselves to the service of others.

All Saints 100th Anniversary

What Do You Know, All Saints?
 Expand your knowledge of All Saints Parish and School with history and questions drawn from the past 100 years. Enjoy and celebrate All Saints!

The Tasavant Freres pipe organ behind the altar was built for All Saints in Quebec Canada and installed in 1966 for the opening of the church. Weighing in at about 20 tons, it was the largest pipe organ in any Catholic parish in the Pacific Northwest. The power and grandeur of the organ comes from three keyboards that control 43 banks of pipes, plus 32 stops with couplers, for a grand total of 2,336 pipes!
